SIEMENS

Operating instructions

RDH100

The RDH100 is a room thermostat that allows you to set the desired room temperature (setpoint) for the desired time. The unit features an ergonomic setting knob for easy temperature control.

2 alkaline batteries type AA, 1.5 V

Commissioning

- Remove the black transit tabs from the 2 alkaline batteries.
 Check to see if the battery compartment is in its correct position
- If no batteries are inserted, fit 2 alkaline batteries type AA in the battery compartment

Selecting the required temperature

- Turn the setting knob counter-clockwise to decrease the setpoint, or clockwise to increase the setpoint in increments of 0.5 °C

Changing the batteries

- Get 2 new alkaline batteries type AA, 1.5 V.
- Within 1 minute: pull out the battery compartment and remove the batteries, insert the new batteries and replace the battery compartment.
- Make certain the old batteries are disposed of properly, in compliance with environmental requirements.

Energy saving tips without sacrificing comfort

- Never allow room temperatures to exceed 21 °C
- Air out rooms for short periods of time only, but properly, with the windows wide open

Parameter setting

Parameter setting mode

- Press RESET on the rear for 5 seconds until "P01" appears. Note: Pressing the button longer than 10 seconds resets the thermostat.
- Press RESET again and the parameter value on second line flashes and is ready for adjustment.
- 3. Adjust the parameter using setting knob.
- Press RESET once to confirm the setting.
- 5. Rotate the setting knob clockwise to next parameter and repeat steps 2 to 4.
- Exit the parameter setting mode by rotating the setting knob clockwise to "End" and pressing the RESET button once.

Parameters:

- P01 Control behaviour: 2-position 1K / 2-position 0.5 K / PID fast / PID slow (factory-setting)
- P02 Maximum temperature range
- P03 Minimum temperature range
